

# DEVOPS SERVICES

## ACCELERATE TIME-TO-MARKET WITH TARGETED DEVOPS SERVICES

In today's uber-competitive environment, delivering high quality software on a short lead time is imperative for business success and survival. The traditional 'silo-ed' approach to developing software leads to slow and prodigious releases.

DevOps facilitates integration and collaboration between

### HOW WE HELP

Microland's DevOps services (see Figure 1) facilitate adoption of the 'automate-and-version-control-everything' approach to drive integration and automation of toolsets, self-service portals, and SLA-driven services (remote and onsite).

development and operations teams. This leads to faster, and continual software 'deployments-to-market'.

However, DevOps adoption requires prudent changes in organizational culture, process, and practice. Challenges abound in designing, deploying, and managing DevOps tool-chains.

Leveraging over 25 years of expertise coupled with the knowledge of our AWS and DevOps process-trained engineers, we create successful DevOps environments.

### WHAT YOU CAN EXPECT

Microland's cloud DevOps services deliver the following outcomes:

- **Maximize cloud investments**  
Through DevOps automation framework, continuous integration, cloud orchestration, and configuration tools, we maximize ROI (Return on investment) of your DevOps environment.
- **Cost Optimization**  
smartCenter and smartGovern frameworks enable cost-effective management of your multi-tools and multi-cloud DevOps environments.
- **Faster turnaround**  
Employing DevOps best practices helps increase productivity and resilience.

## WHAT SETS US APART

Microland has vast expertise in building DevOps environments on public and private clouds using open source and cloud native tools. Our differentiators include:

### Proprietary toolset

- **smartGovern** identifies cost optimization opportunities and enforces organization-specific governance and

compliance requirements on AWS infrastructure.

- **smartDevOps** automates the complete development -to-release cycle.

### Extensive experience

- We have the right competence to support complex delivery requirements.
