

## EMPOWER YOUR WORKFORCE WITH MANAGED MOBILITY SERVICES

Modern enterprises face myriad challenges in improving productivity. With advancing technology and increased connectivity, they want their employees to operate anywhere, anytime. A plethora of mobility solutions and tight imperatives on data protection and security puzzles

decision-makers on how to efficiently implement mobility and cloud solutions. They need skilled professionals and expertise to deploy Mobility Management solutions (MMS) for amplified productivity, superior communication, and better efficiency.

### HOW WE HELP

We deliver end-to-end MMS (see Figure 1) using cutting-edge technologies like Microsoft Enterprise Mobility Suite (EMS). Our long-standing partnership with Microsoft, a

leading Enterprise Mobility solutions expert, ensures we deliver only best-in-class services.

Figure 2 highlights our proprietary tools for Enterprise Mobility Management (EMM).

Figure 2: Microland's Proprietary Tools for EMM

## WHAT YOU CAN EXPECT

Our MMS enable:

- EMM strategy development, solution design, and deployment
- Operationalization of BYOD/CYOD/COPE
- Mobile application virtualization, wrapping, and testing
- Managed lifecycle mobility services

## WHAT SETS US APART

Our domain differentiators include:

### People, Process, Technology

- Management of over 250,000 mobile devices by over fifty MDM experts across technologies
- Enterprise Mobility Resource Center for efficient project delivery

### End-to-end Planning

- Delivery cycle optimization, system integration, deployment, and configuration

- Managed services for Level 1 and Level 2 support, implementation, maintenance, and troubleshooting

### Successful Track record

- Successfully deployed Microsoft EMS for global enterprises in diverse industries
- **Pre-built Assets** IPs developed in-house accelerate deployment of mobility solutions thereby optimizing cost and effort
- **Turnkey Solutions** - Proof of Concept (POC) solutions mitigate challenges with initial turnkey engagements
