GET YOUR MODERN OFFICE IN THE CLOUD WITH SMARTOFFICE365 MIGRATION SOLUTIONS

The cloud is here to stay, as is the era of real-time, technology-driven, service-oriented business environments. Today's increasingly mobile workforce expects enterprises to deliver on the promise of the cloud on their terms - on any device,

anywhere, anytime. To accomplish this, organizations rely significantly on unified communication systems, social computing platforms, and messaging and collaboration tools.

HOW WE HELP

Microland's smartOffice365 services leverage Microsoft O365 to reinvent communication and collaboration across enterprises.

Our smartOffice365 suite employs a 7-step framework (see Figure 1) to design your modern office in the cloud.

Figure 1: 7-Step assessment and planning framework

(see Figure 2) designed for Microsoft O365 adoption.

All seven phases comprise specific services

Consultants experienced in 'Now2Cloud Consulting Framework' engage with your IT teams to build a cloud productivity strategy and roadmap

Design and Build

aligned with organizational goals.

Planning

Best-in-class O365 design and architecture is employed for the chosen cloud model to ensure seamless migration.

Migration

Migrate from other platforms to O365 Exchange:

- Microsoft Exchange to Exchange Online(O365) dedicated and multi-tenant
- Lotus Notes to Microsoft Exchange /Exchange Online (O365)
- IMAP/Google/GroupWise to Microsoft Exchange/Exchange Online (O365)
- Tenant to Tenant (D-MT or MT –D)
- Gmail, G-Drive, FileShare to One Drive for business

Change Management

 $24/7\,$ management of O365 environments with appropriate delivery models. We provide:

- Knowledge kits to train users on email, collaborative tools, IM, conferencing, and social business features of O365.
- User support to accelerate O365 adoption.
